[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 11.

EASTERN STATES.

Rejoicing Over the California Election

NEW YORK, Sept. 10.—One hundred guns were fired from the Government Barge Office at the Battery yesterday in honor of the Republican victory in California.

It is expected that ten thousand Trades-Unionists will take part in the Workingmen's demonstration next Wednesday.

General William H. Seward, Jr., has resigned the Treasurership of the Southern Central Railroad.

ROCHESTER, Sept. 10.—Rev. A. G. Hall, D. D., pastor of the Third Presbyterian Church of this city for thirty years, died to-day.

NEW YORK, Sept. 10.—A dispute occurred to-day between J. McCauley, baggage master on the New York and Harlem Railroad, and Thos. Murphy, in which Murphy shot McCauley, killing him instantly.

CHICAGO, Sept. 10.—A fire at Bloomington, Illinois, last night, destroyed entire a block of buildings in the business part of town, including the Opera House. Total loss, $250,000. Insurance, $120,000.

Criminal Carelessness.

ST. LOUIS, Sept. 10.—A terrible accident occurred to-day at the crossing of the St. Louis and Vandalia Railroad and Collinsville plank road, two and a half miles east of St. Louis. A furniture wagon, containing a party of picknickers, grown people and children, crossing the track, was struck by the engine of an excursion train and knocked to splinters. Three were killed outright, two fatally, and four or five severely injured. All were more or less hurt.

BOSTON, Sept. 10.—The Coroner's jury on the Eastern Railroad accident agreed on their verdict to-day, which was approved by the Coroner. The jury find that the collision was caused by the negligence of John S. Nowland, conductor of the Beverly train, the one run into, and A. G. Brown, engineer of the Pullman train, Nowland having failed to leave notice for Brown that his train was behind time, and Brown for having neglected to see the tail lights of the Beverly train of which he had an unobstructed view for one half mile before the collision took place. The jury find that Lunt, depot master at Boston, was remiss and careless in his duty in not correctly transmitting the order of the Superintendent to the engineer of the Pullman train to look out for trains ahead. The jury further find the President and Directors of the Eastern Railroad to a great extent responsible for the loss of lives aforesaid.

HUDSON, N. Y., Sept. 10.—A meeting of the members of St. Mary's parish was largely attended and the action of the vigilance committee on Friday in resolving to resist to the last extremity a reinstatement of Father O'Sullivan over the church was unanimously endorsed. A strong guard was placed around the church last night. This morning Father O'Sullivan did not appear. No services were held to-day. A great crowd was around the church this morning, but perfect order prevailed. The rebels are firm and united in their determination to prevent O'Sullivan or his adherents entering the church at all hazards, and are prepared for any emergency.

NEW YORK, Sept. 10.—Comptroller Connelly yesterday informed a reporter that he had no intention of resigning, and Mayor Hall said he had not heard that any city officials designed to do so. The corporation counsel will reply to-morrow before Judge Barnard to the application for a perpetual injunction against the city officials, Mayor Hall having decided to take no part in the case.

The *Times'* money article this morning says the recent heavy fall in Hannibal and St. Joseph Railroad stock is due to troubles in the city hall ring, which holds large amounts.

SARATOGA, Sept. 10.—Nearly everybody remained over to see the regatta to-morrow. The hotels are crowded. The crews took their regular exercise to-day at the lake, and are in good condition.

A Fight in Texas.

BROWNSVILLE, Texas, 10.—A fight occurred on the 25th ult. between cattle drivers and rancheros near Edinburgh in which two of the former were killed. Gen. Cortona, commanding Tampico, threatens retaliation. Rancheros are buying arms to resist.

WASHINGTON CITY.

WASHINGTON, Sept. 10.—The Commissioner of Internal Revenue decided that articles liable to stamp tax on schedule C must have stamps affixed before they leave the premises of the manufacturer, irrespective of the kind of packages employed for putting up the same for market, whether such package is of usual size or extraordinary, or what is frequently termed packing in bulk. Each package must have a stamp or stamps of the value indicated by the retail price or price received for a single package and its contents. The dealer may sell directly from the package which has been properly stamped according to the price paid for the package and its contents without affixing additional stamps, but the dealer who breaks the original package and repacks its contents into small packages, putting on his marks and labels, will be required to stamp the small packages when offering the same for consumption or sale. The manufacturer in every case must stamp the package in which he delivers the goods to customers, whether the customer furnishes his own vessel for reception of the article, or whether it is furnished by the manufacturer himself.

WASHINGTON, Sept. 10.—A detachment of the 7th cavalry are ordered to Florida to assist revenue officers in making collections. It is said two companies of infantry and one of cavalry will remain in Raleigh, North Carolina, during the Kuklux trials, which commence this week.

BY ATLANTIC CABLE.

LONDON, Sept. 10.—The funeral of Renforth took place to-day at New Castle. The attendance was extraordinary. Some accounts represent the number of people who witnessed the burial at 100,000. The concourse was so great that the cemetery where the remains were deposited, is much damaged.

The Emperor of Brazil and Queen of the Netherlands visit Italy this Autumn.

Cardinal Bonaparte has gone to Rome. He carries with him a letter from Napoleon to the Pope.

The Clerical party in Rome is preparing for a demonstration on the 20th inst.

The Reds have resolved to make a counter demonstration. Trouble is anticipated.

Emperor William has arrived at Constance.

French Affairs.

PARIS, Sept. 10.—A conspiracy has been discovered at Toulon to burn the arsenal and liberate the convicts.

Count Bouet Willaumez, Vice Admiral of the Navy, died yesterday.

Gen. Manteuffel, commander of the German army of occupation, after announcing yesterday the consent of his Government to the evacuation of the Departments around Paris, dined with President Thiers, Ducrot and Chanzy.

The Department of the Seine is to be evacuated on the 1st Oct., after which the troops will be withdrawn from other points at the rate of 1,000 daily.

Deaths in Paris the past week, 713.

Returns show that typhoid fever is increasing and becoming epidemic.

Minister Quertier introduced in the Assembly, as a provisional and temporary measure, a bill levying one tenth of the proposed increase in taxation to meet the immediate demands of the Government. The bill finds considerable opposition in the Chamber.

MADRID, Sept. 10.—It is officially announced that the subscriptions to the amount of seven times the total of the new loan, have been received.

CONSTANTINOPLE, Sept. 10.—Seron Effendi Mostocha has been raised to the dignity of Pasha, and appointed Minister of Foreign Affairs. General Essad Pasha, Commander of the First Army corps, has been appointed Minister of War.

MEXICO.

Juarez's Election Certain.

CITY OF MEXICO, Aug. 29.—It is reported that Lerdo has joined Juarez, in which case the election of the latter as President is certain.

Prominent frontier chiefs, Cavallez, Vargas, Ervide, Guerogan and Martinez, are preparing to issue a pronunciamento if Juarez is declared President.

Merchants of Tampico refuse to pay Government duties exacted of them by revolutionists, and the troops in consequence are closing commercial houses. People are alarmed, merchants protesting, and the conduct of the Government likely to result in the open declaration of opposition.

There is much excitement in this city respecting the first meeting of Congress. Fears of conspiracy and revolution prevail.

Three hundred rebels are operating in Lacaco and others in Michoacan.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 11.—The whole Republican State ticket is elected, including all three Congressmen, with the exception of McGlynn, for Harbor Commissioner, who, possibly, may be elected by a scratch.

Booth's majority in San Francisco, 2,875. His majority in the State will be probably from 5,000 to 7,000.

A number of outside counties yet to be heard from.

The taxpayers of San Francisco elect Mayor and all other candidates, except Badlam for Assessor, who is beaten by nearly 300; Higgins for Recorder, who is beaten by Haynes through straight Republicans running Col. Stevenson; the Supervisor in the Fourth ward, who is beaten by Tim McCarthy, independent, one school director and one Justice of the Peace.

Lectures vs. Debates.

We are requested to insert the following, which appeared a day or two since in the *Statesman:*

I am anxious to meet Mr. Underwood in the field of Christian evidences, and to this end accepted his challenge, naming, as I had a right to do, my choice of methods. Common debates are neither dignified nor wise. The lecture system is one now generally adopted by the advocates of opposing systems, and has the advantages of a debate. My proposition to occupy alternate evenings, the intelligent of this coast will consider a fair acceptance of the challenge he has hung out at every open window. My position as Professor of Natural Science and Instructor in Christian Evidences in Wallamet University, led me to believe that I might be considered a worthy opponent, and, after consulting with friends, and being assured that Mr. Underwood was an acknowledged champion of infidelity and a gentleman, I took up the gauntlet, as the OREGONIAN interpreted it. He writes you that many Christians will not come to hear him, whom he especially wishes to reach. A large percentage of his auditors have been Christians in every place he has spoken as far as I have heard. Besides, no man would go to hear one side that would not also wish to hear the other. I adhere, therefore, to the terms first mentioned, and claim that Mr. Underwood must in honor accede to them. Our college term opening next week, I must also ask that Salem be the place for discussion.

LOWELL L. ROGERS.
WALLAMET UNIVERSITY, Sept. 8, 1871.

OREGON.

John Sizemore is making salt in considerable quantities in Jackson county.

H. Kelly has become editor of the Jacksonville *Sentinel*, and writes a sensible introductory.

The Jacksonville *Sentinel* learns from Southern Oregon that the country round Langel's Valley is fast settling up, and that it is estimated that there is over 6,000 head of stock in that valley and immediate vicinity. Grass is abundant and a large amount of hay has been put up for emergencies.

The Jacksonville *Times* learns that a San Francisco company have taken the copper mine of Smith, Rigsby & Co., on Fall Creek, near the Illinois river. The company are sanguine of being able to reduce the ore so that it will bear transportation, and, in view of that, have a large force of men now employed in cutting a trail from the mine through to the mouth of Chetco river, at which point the company propose to ship their ore. The successful working of those mines will be of immense service to Josephine county and Southern Oregon generally.

POLITICAL NOTES.

Wilmington, Delaware, has been carried by the Republicans by a large majority. The Democratic city government is overthrown, the Republican gain being 650 over the vote of last year.

The sincere temperance organizations in Pennsylvania are most earnest in their denunciation of the nomination by a few disappointed politicians of temperance candidates for State officers as uncalled for, unauthorized, and calculated to injure the cause of temperance.

A Washington dispatch of September 6th has this: The politicians at the White Sulphur Springs this summer are stated to have generally favored the nomination of General Hancock for the Presidency, but they declared that the South would not endeavor to shape the nomination. It is also stated that the friends of Chase are very active, and are now sending secret circulars throughout the South urging his nomination. Judge Davis of Illinois is said to be the candidate specially favored by Tammany Hall.

FOREIGN NOTES.

While the new frontier between France and Germany was being drawn, a stone was found, between Gravelotte and Doncourt, which bears upon one side the inscription: "*Terre de France*," and doubtless formerly served as a landmark. It stands exactly on the line marked by Kieper as the former frontier of the German Bishopric of Metz, and was to all appearances erected before 1552, when the city became French. The stone will now be preserved as an interesting historical memorial.

It is pointed out by the Italian journals that the great tunnel under Mont Cenis, which is to be opened on the 15th of this month, will then have been completed three months before the time stipulated in the contract—December, 1871. The work was commenced in 1857, and has thus been fourteen years in hand. The rate of progress has been about three yards per day. On the French side there is still part of the connecting line—about six miles in length—incomplete. This will not be ready until a month after the opening of the tunnel.

While at Ems the German Emperor, according to the correspondent of the London *Times*, has selected the Generals who are to have apportioned among them the 4,000,000 thalers set apart by Parliament as a reward for the heroes of the war. It does not seem quite certain whether the names will be published. German notions of delicacy forbade Parliament to restrict the Emperor in the division of the money, and may equally forbid the Emperor to announce the names of the recipients. All that is known is that the three South German Ministers of War and two or three South German Generals are included in the list.

Orders have been given to complete the network of German fortifications without delay. Though Strasburg has not yet been taken in hand very vigorously, thousands of workmen are engaged in replacing the earthwork of Metz by solid masonry. Similar constructions are also being raised at certain points along the shore. Nor are there any gaps in the railway communication on the coast to be permitted much longer. The Tilsit-Memel line will be finished in a year and a half, the Bremerhaven-Cuxhaven and the Harburg-Stade-Cuxhaven lines will be ready by the end of 1873, and a direct railway from Hamburg to Bremen is spoken of as another probable link in the iron chain already binding the North Sea to the Baltic, and both to the interior.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Saratoga Regatta.

SARATOGA, Sept. 11.—The great four-oared boat race came off on Saratoga Lake this afternoon. It was won by the Ward crew in 24 min. and 24 sec. The Tyne crew was second, Biglins third, Taylor-Winship crew, fourth. The Taylor-Winship crew claim that the Biglins fouled them at the stake-boat. The Judges decided that the dead heat for the third place, between them, be decided by a race between the two crews this afternoon.

The Tammany Thieves.

NEW YORK, Sept. 11.—The injunction case against the city officials came up this morning. The defendants all appeared by counsel and announced their readiness to proceed.

The Controller's office this morning was found to have been entered by burglars, and a number of vouchers and bills paid in 1870.

Fatal Boiler Explosion.

NEWBURYPORT, Mass., Sept. 11.—A boiler in Curtis' hat factory, exploded, killing five men outright. Several are wounded and missing.

A Family Murdered.

LEXINGTON, Ky., Sept. 11.—Jacob Harper and Betsy Harper, brother and sister, and John Harper, a well-known turf man, was found murdered at the latter's house. Several negroes living near the place have been arrested on suspicion. Blood was found on their clothes. The evidence is strong against them.

WASHINGTON CITY.

Naval Matters.

WASHINGTON, Sept. 11.—Capt. N. B. Caldwell is ordered to command the *Colorado* in the Asiatic fleet.

Rear Admiral Alden, detached from duty as Chief of the Bureau of Navigation, sails in October to take command of the European fleet.

It is said that Capt. Daniel Ammen will be assigned to the charge of the Bureau of Navigation. Commodore C. R. Rogers will succeed Capt. Ammen in the charge of the Bureau of Yards and Docks.

General instructions will be issued by the Commissioner of Internal Revenue in a few days to all Collectors, to the effect that they must immediately make final reports of all the taxes held by them for collection.

BY ATLANTIC CABLE.

LONDON, Sept. 11.—The *Times* in discussing the importation of foreign workmen, supports the strikers in the nine hour movement on moral and sanitary grounds.

Potato disease has appeared in Lancashire.

Queen Victoria has recovered from her recent illness.

Germans Evacuating France.

PARIS, Sept. 11.—The evacuation by the German troops of the four Departments contiguous to Paris will be completed on the 13th. Negotiations have commenced in relation to the evacuation of the whole of France.

The Murder of Prim.

LONDON, Sept. 11.—A Madrid letter contains information that an imprisoned republican named Jose Lopez has hinted in a handbill which has been placarded that the assassination of General Prim was effected by the Duke of Montpensier, who is charged with being a party to negotiations had with a condottieri and company of desperadoes, a so-called secret society and whose object is understood to be putting Prim out of the way and putting Montpensier on the throne of Spain. A short time subsequent to the killing of Prim one of the men connected with the society named Jadraga complained to Montpensier that all that the society had agreed to do was not done.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 11.—Weather cool and cloudy.

Arrived—Brig N. *Hastings*, Hongkong; merchandise to Wm. Olmstead.

Henry Clifford, proprietor of a milk ranch near University Mound College, has been arrested on a charge of assault to murder. It is alleged that boys in the neighborhood were in the habit of going on to his grounds to collect fuel, and he made an infernal machine in which a pistol loaded with shot was concealed, and left it where the boys would find it. Two boys found it, and on lifting the box the pistol exploded, and one of them, named Roberts, aged nine and a half years, received the contents of the pistol directly in his face, blowing out both his eyes. The examination of the case was postponed for a week. Meantime the police are working up the evidence.

It is feared that John McGlynn, for Harbor Master, may be beaten by Rosenfeld, the having run behind his ticket in all parts of the State. The figures so far received are very close.

The Board of Supervisors to-day held a special meeting at which communications were received from Badlam asking a recount of votes for Assessor; from McGlynn for a recount of votes of the city and county for Harbor Commissioner; from C. H. Stanyan, demanding a recount of Supervisor of the Twelfth ward; from Louis Franconi, of the Second ward, and Geo. Schwartz of the Tenth, demanding a recount of votes for Supervisors, and from Wm. Carroll, of the Tenth ward, for a recount of votes on School Directors. Recounts were ordered as asked, and the Mayor appointed Supervisors Menzies, Goodwin, Commings and Harrold as a committee. The returns are being watched in the County Clerk's office night and day by one man from each party besides the clerks.

This evening S. J. Hensley wheeled C. A. Boyce through Kearney street in a wheelbarrow in pursuance of an election bet, Hensley having gambled on the Democrats. He was dressed like a sport, with white kid gloves and a cravat to match. They were accompanied by a drum and fife band and a large crowd. A considerable sum in contributions for the joint benefit of the Protestant and Catholic Orphan Asylums was collected from the crowd.

The demurrer of the DeYoung Brothers, of the *Chronicle*, to the indictment for libel charging Casey with improperly manipulating matters at Mare Island, was overruled to-day and the case ordered on trial docket.

The Republican Central Committee are confident that the majority in the State will exceed 6,000, and that McGlynn is certainly elected Harbor Commissioner.

SAN FRANCISCO, Sept. 11.—Only $163 was collected from the crowd when Hensley wheelbarrowed Boyce through the streets to-day.

Western Union telegraph wires have been extended to the Hall of the Board of Brokers, and hereafter messages to and from brokers and their customers will be sent direct.

It is reported that Howland & Co. have negotiated the sale of the Silver Cloud mine in Utah for $20,000 to Jay Cooke & Co., of Philadelphia.

The Colored Skating Club will have a grand carnival at Platt's Hall.

The Japanese who came here with an extensive assortment of rich goods for exhibition at the Fair, have decided to remain here and go into business, and have rented a store for that purpose. They represent a capital of a million dollars, and will do business on an extensive scale. The Chinese contributions will be sold at auction. The pavilion was nearly stripped of goods to-day, and the preparations for a grand carnival ball will commence at once.

Neither the Panama steamer nor either of those from Portland have been telegraphed.

The inquest case on the body of Patrick Burns, shot by Marion Wilson in the affray with Marks Jazidky, is postponed to Wednesday to enable the defendant to introduce witnesses.

James Nelson, for many years a clerk for C. Wenturn, dropped dead on the street from apoplexy, yesterday.

Dr. Murphy, who is in attendance on Dennis Robinson, the boy who was shot by an infernal machine on Clifford's milk ranch, states that the report that the boy's eyes are blown out is a mistake. He hopes to save one, if not both, though the boy is crippled and disfigured for life.

The porter at the Mint, in taking a warm and then cold shower bath this evening, fell down with apoplexy.

The Committee appointed by the Supervisors to recount the votes, commenced in the Second Ward this evening, but they found that the law was imperative, and the counting must be done in the presence of a full Board. The special committee will proceed with the recount in the presence of a full Board to-morrow evening.

INTERIOR CALIFORNIA DISPATCHES.

From Santa Cruz.

SANTA CRUZ, Sept. 11.—Last night about 12 o'clock a party of Mexicans rode to a house of ill fame in the eastern part of the city and demanded admittance, which was denied. They fired a volley of pistol shots through the house and then rode off in the direction of the Plaza where they met officer Liddell, who ordered them to halt. They replied by firing a volley at the officer, who returned the fire. A lively engagement ensued. Liddell received a bullet in the fleshy portion of the leg. Seeing the officer fall the Mexicans rode off and successfully eluded pursuit.

The Senatorial contest between Beck and Flint for Joint Senator for the counties of Santa Cruz and Monterey is very close. Flint claims six majority. Beck (Dem.) asserts that he has five majority. A recount is now in progress.

LOS ANGELES, Sept. 11.—The Board of Supervisors will give the official report to-morrow of the election returns of Los Angeles county.

At Anaheim to-night the Republican candidates are firing 100 guns in honor of the election of Booth.

In the town of Santa Anna a fine flow of artesian water was struck at a depth of two hundred and ninety feet.

SALT LAKE, Sept. 11.—An unknown man, supposed to have been torn to pieces by bears, was found Saturday at [illegible] Little Cottonwood and Farley's Park. A gold watch and chain and dust and pistol were found. The body was entirely devoured and carried away.

VISALIA, Sept. 11.—The official count of Tulare county give Haight 696, and Booth 437. Berkhalter (Dem.) beats Lindsey (Rep.) for Joint Assemblyman 2.

Geo. Hall, shot by John Drouillard on Wednesday, died yesterday.

SAN DIEGO, Sept. 11.—The official returns of San Bernardino county gives McCoy (Dem.) for Joint Senator 175 majority.

SUISUN, Sept. 11.—The official returns of Solano county give the following majorities: Booth, 1,340; Pacheco, 1,326; Coghlan, 1,525; Haight, for Assembly, 1,906. The whole Republican county ticket is elected.

SANTA CRUZ, Sept. 11.—The official count of this county gives Booth 1,213, Haight 177, Pacheco 1,208, Lewis 783.

Nothing has yet been discovered of the Mexicans who [illegible] last night and who made their escape from town, shooting into the houses [illegible] as they rode off.

SAN JOSE, Sept. 11.—The Board of Supervisors commenced counting election returns to-day. The returns from the Second Ward were objected to, as the packages were not sealed according to law. The Board adjourned till to-morrow.

YREKA, Sept. 11.—The official vote from all but two small precincts, in Siskiyou county, which will not give a majority of five either way, gives Haight 230 and Pearce 254 majority. If votes from this section are thrown out several Democrats on the county ticket will be elected. There is intense excitement among both parties.

STOCKTON, Sept. 11.—The display of blooded live stock at the San Joaquin Valley Agricultural Fair, which opens here to-morrow, promises to be very fine. Stalls are all engaged. Many fine running horses have arrived. The pavilion is filling with articles for exhibition.

The Board of Supervisors not having received the ballots from Tulare precinct, are unable to make an official report this evening.

RED BLUFF, Sept. 11.—Official returns from Tehama county gives Haight's majority at 63, Lewis' majority 70, and Pearce's 23.

DISEASES OF THE EYE.
All Acute or Chronic Diseases of the Eye, Granulated Lids, Specks, Films, Opacities of the Cornea, etc.; Nervous or Sick Headaches, etc.
All of these painful, distressing and [illegible] fatal maladies are speedily and permanently cured by the late discoveries and scientific mode of practice peculiar to
DR. ABORN,
Whose remarkable success in curing Chronic and Obstinate Diseases that have for years or a lifetime resisted the usual routine of treatment is well known on the Pacific Coast as well as throughout the Union.
Convalescence and Recovery
are rapid under his new and [illegible] mode of [illegible]. But very few, if any, men of his age in the profession have been so universally successful as DR. ABORN. Combining with his [illegible] knowledge, skill and [illegible] in his special branch of the profession all that the inventors of the age in the late discoveries of [illegible] have brought to the aid of the modern practice, DR. ABORN is prepared to treat with almost unfailing success all such cases as may come under his care. He has, within the past few years, introduced into his practice many new and important remedies, with novel and effectual modes of application, with which, during his [illegible] practice, he has produced the most [illegible] and satisfactory results.
DR. ABORN,
For twelve years past has devoted himself to office practice for the treatment of obstinate chronic diseases, especially such cases as have resisted all the ordinary modes of practice. He has thus been enabled to treat at least five times as many patients annually as he possibly could, had he treated them at their homes. Thus he claims twelve years' office practice, exclusively devoted to special chronic diseases, as more than equivalent to sixty years' experience in general practice.
NO PAINFUL OPERATIONS.
DR. ABORN does not subject his patients to any painful or unpleasant operations. His treatment is mild and safe for the most delicate child. The afflicted are hereby informed that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocations.

TUESDAY MORNING, SEPT. 12, 1871.

A Painful Search.

What will be the next move of the tag-rag political elements opposed to the triumphant and invincible Republican party? The "new departure" is confessedly a failure. It was an attempt, by an illogical and dishonest fetch, to lift the party out of the slough of despond. At the beginning it was condemned by nearly all the organs of Democracy on this coast, which organs now will turn upon the advocates of the movement with bitter objurgations for the defeats it has met, and a savage, "We told you so!" But what is to be done next? Can the party fall back on the issues of 1868 and make another fight against the results of the war? They were charged with this intention some months ago and in alarm made haste to disavow it. To give force to the disavowal they took the "new departure," an insincere expedient, which disgusted multitudes of their own partisans and failed to convince any Republican that it would be safe to quit his party and vote with its enemies. And now, as this new movement does not win, something else must be attempted. A Georgia politician, Ben Hill, says that his party "must either abandon the 'new departure' entirely and fall back to the issues of 1868, or boldly advance beyond the 'new departure;' how far can be better determined hereafter." He thinks that as the people of the United States are resolutely determined not to recede one step from the constitutional amendments it would be the height of folly to go back to the issues of 1868, and he is decidedly in favor of taking a position far in advance of that held by the Republicans. He would out-Radical the Radicals. This suggestion will do for the party to ponder over. It is in a sad dilemma about what to do next, and should receive encouragement in its search for the right path to take. Let us hope for the good of the country that it will cast about till it gets a better and safer set of principles than it has ever had yet, however painful and distracting the search may be.

The Democratic Situation in New York.

The New York *Tribune* prints statements going to show that many Democrats are getting ready to disown connection with the enormous frauds in New York city. A general smash-up is threatened. The German *Staats-Zeitung*, a Democratic organ, refuses utterly to support the city government. The *Tribune* says:

> A still more significant action had meantime been taken by other leading Germans. Within the last fortnight a meeting of leading German politicians and the principal members of the Democratic State Central Committee has been privately held at Utica, N. Y. Of the Committee, Horatio Seymour and Samuel J. Tilden were present, as was also Mr. Francis Kernan. The Germans were represented by Mr. Magnus Gross, Coroner Gershon N. Herman and Alderman Edward Schlichting. The latter were very outspoken, and informed the members of the Committee that their people would not countenance or support Tweed and his fellows in their career of thieving and fraud, adding that unless a decisive stand was taken against Tammany by the State Committee, the German Democrats in New York would go with the rest of their countrymen in America over to the Republican party.
>
> Ex-Governor Seymour, in the course of the long consultation which followed, said that the deeds of these men, Tweed, Hall and Connolly, were abhorred of all upright citizens, and that their transactions reflected odium on the whole party. He had always endeavored to preserve the Democratic party from the taint of official corruption, and he added that the power of the Ring must be taken from Tweed, Hall and Connolly, if they did not at once clear their skirts of the charges which had been made against them.
>
> Mr. Kernan was also loud and positive in his denunciation of Hall and Connolly, and said that they had done more injury to Democratic principles than the whole force of the Republican party.
>
> It was tacitly admitted by all those present that *they believed the charges were true.* In the entire consultation no suggestion that the charges were possibly false was made, but it seemed to be understood that *they were unanswerable.*

The New York *Citizen*, which is edited by a Democratic member of Congress, comes out unequivocally in condemnation of the city government. Alluding to the defense that most of the extravagant accounts allowed to Ingersoll & Co., Garvey, Kayser, etc., were passed by the old Board of Supervisors, the *Citizen* says:

> But this Board, wholly a machine of Tammany's as it had come to be, was abolished, and the greater part of the bills denounced by the *Times* had not even the excuse of the semblance of its endorsement. They were passed by a special Board of accumulated debts, and on that were three of our present rulers. So that this excuse, flimsy as it was, quickly came to grief, and left the responsibility exactly where it belonged, with the four men who rule this city—rule it so absolutely that no independent Democrat has the possibility of political life—rule it so thoroughly that they dare put at defiance the anger of the people—rule it so completely that nominations are made not because candidates are popular with the people, but because they are useful to the Ring. If the Supervisors had passed these bills it would merely have been an act of ordinary subserviency, such as is daily exacted from every board in the city; but the truth is they only acted on a small portion of them.

In the concluding paragraph the editor refers to the plea that the charges lately made are purely political and should, therefore, be disregarded by Democrats, and says:

> This is altogether the best line to follow, and if sufficient dust can be raised and confusion created to bring out a strict party feeling, they may save themselves for a longer lease of power. Probably this course may bring down upon the entire organization national denunciation, and may lose us the next Presidential election; but it may save our beloved municipal masters, and that is enough. It may not be pleasant to be paying taxes for buildings that are never erected, and for furniture that is never supplied, or carpets that are never delivered, or for plastering that is never done; but it is some consolation that we pay them as a party due, and in so noble a cause, and under the idea that by so doing we are proving ourselves good Democrats.

But the Tammany ring have their assailants at a disadvantage. This ring is the head and soul of the Democratic party. Break it down and New York State goes Republican. Then what chance will the Democrats have in the Presidential election? Tammany, therefore, reckons that Democrats will not dare to revolt against its power.

When Gov. Haight of California was nominated for re-election he appeared and made a speech, saying that he would not have sought a re-nomination had he not been censured and defamed for his official acts. Under the circumstances he wanted a vindication; therefore he accepted the candidacy for a second term. Looking at it in the light shed by the election returns it does not exactly appear where the "vindication" comes in. Winning by 9,000 before, and defeated by 6,000 now. Few men would hunt for such a "vindication."

One of the exhortations used in California on election day was "Vote down the pauper litigant law!" And the thing was done. The same exhortation will be heard at the Oregon polls next year. And a like result will follow. *Herald* copy.

All three Republican Congressmen elected in California. A lively shake-up. Now if the "organ" here would be good enough to give us a brief article to prove that the people "don't trust the Radical party!"

The Grand Avenue, the West Park—Public Opinion.

TO THE EDITOR OF THE OREGONIAN:

I have read with much interest several articles, which have appeared in your paper, in relation to the purchase by the city of what are called the Park Blocks, and which are claimed by citizens. I must say that there is a feeling exhibited by the writers of the articles in question, in regard to supposed rival interests and opposition to the purchase proposed, which, I think, is not borne out by facts, and which is doing a wrong to a class of our citizens. To be plain, at once (for I do not propose to write a long communication for your paper), the assumed hostility of those persons who thought it expedient for the city to purchase the grounds now comprised in the West Park, that they are opposed to the purchasing, opening, and improving the Park Blocks. Those who favored the purchase of a portion of the King property, believed that the time had come to purchase, and if that purchase was not made, then in after years we would feel the same regrets that we now feel in witnessing the unfortunate disposition of the levee property. They are willing to submit it to time to test the value and importance to this city of the purchase of the West Park grounds.

But those men do not oppose opening of what has been termed the Grand Avenue. They have at heart the interests of the city, and are as anxious that the Avenue shall be improved as any other class of men. They know that for some time to come the open and ornamental Park Blocks would be readily accessible to those classes of persons near by, to enjoy them. I have made this statement, or rather presented my convictions of the feeling of what has been assumed as the particular friends of the West Park, because it is a wrong to them to hold them responsible for the failure of the purchase of the Park Blocks and of opening the Grand Avenue, if that most unfortunately should prove to be the result.

All our citizens feel a lively interest in the authorities of the city pursuing a far-reaching policy of improving our city, and of making its streets, and parks and public buildings a pride and honor to them.

No—there is no opposition to the purchase of the Park Blocks. Every class of citizens desires the city improved in the best manner; desires parks, and shades, and fountains; desires city markets and city water works; desires every suitable means to be adopted to secure our rapidly increasing numbers of people the great conveniences and advantages of pure water, cheap water, enough water and pure air, by means of city parks, city markets, to accommodate all. In a word, we want a manly, far-seeing, persistent policy to be adopted by our City Fathers, in all matters of city policy, regarding with a just appreciation the high destiny to which our city is marching, with a giant's tread, as a great, proud, populous, wealthy commercial city.

ALSO, "ONE OF MANY."

The Commission appointed under the act of Congress to examine the Sutro Tunnel are are now engaged in making up their report. They are favorably impressed with the project, and will make some recommendation to Congress in its favor, though in what shape has not been decided upon.

Such papers as the *Herald* continue to apply the term "Radical" to the Republican party. Inasmuch as the Democrats have "accepted" all that was most radical in the Republican creed, it is not easy to see the point of this.

A PLAIN CASE.—The explosion of the boiler on the *Westfield* has been attributed by the experts and the inexperts to the following causes, viz.:

To over-pressure of the steam.
To the superheating of the water.
To low water.
To ignition and explosion of gas.
To superheated steam.
To overstraining under the hydraulic test.
To bad iron.
To bad workmanship.
To patches.
To general debility from old age.
To the absence of longitudinal stays.
To a flaw in one of the sheets.
To the ignorance of the engineer.
To the cupidity of the owners.
To the improper manner of supporting it on the saddle.
To unequal expansion and contraction.

Whitcomb's Asthma Remedy is a sure cure

Influence of Temperature on Health.

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as the most fervid summer weather, while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required, and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever and the bilious remittent seem to recede before it, and if ever it should come into universal use, these diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a pernicious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters are sold in bottles only.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING GREW out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and hurt far better than I have been for years.

Ordinance, No. 1,054.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of South Second street lying between Sherman and Sheridan streets.

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of South Second street lying between the south side of Sherman street and the center of Sheridan street, shall be completed in the manner hereinafter provided on or before the first day of November, 1871.

Section 2. The surface of the street shall be cleared of all plank, timbers, or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading, and laying sidewalks, crosswalks and plank gutters where necessary.

Section 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in section 6, 7, 8, 9, 11, and 12 of Ordinance No. 793, entitled "an ordinance in relation to the improvement of streets."

Section 5. The contractor shall take entire charge of the work during its progress and shall be responsible for any loss or accident resulting from carelessness or neglect.

Section 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Section 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.

Passed the Common Council August 23, 1871.

W. S. CALDWELL,
Auditor and Clerk.

Approved August 25, 1871.

R. F. DANFORTH'S

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabric.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same height of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

COSMOPOLITAN HOTEL.

CHANGE OF PROPRIETORSHIP.

H. B. PEARSON,

Late of the Russ House,

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st. au7d7m?p

KALAMA ILLUSTRATED.—Frank Leslie's Illus
trated newspaper has a wood cut illustration
Kalama from a sketch by Mr. E. T. Coleman
this city. Mr. Coleman says that his sketch
not followed in the engraving, in several parti
lars. The Kalama hotel, one of the most c
spicuous buildings in the town, does not app
at all; the R. R. Co.'s office, in the illustrati
has an awkward peaked roof instead of a n
mansard; and the Episcopal church on the po
of the bluff, is omitted. As we look at the
tame of fact, the buildings in the illustration
not appear quite sufficiently in perspective rel
Otherwise the picture conveys a very fair idea
the town. The newspaper men have publish
in connection with the picture an account of
lama, in which it is stated that "about six, h
dred families" constitute the population. T
is decidedly a whopper. It would be a suffic
exaggeration to say that the entire populati
exclusive of railroad laborers, is six hund
souls. We doubt if an actual enumeration wo
show three hundred. The newspaper statem
is not the one furnished by Mr. Coleman.

THE PARK SAFE.—Mr. Marshall, the Stre
Commissioner, informs us that he sent out to t
Mountain Park three or four men Sunday eveni
and the same number were kept
to fight the fire and prevent its entrance to th
Park. At noon yesterday this force had succ
in driving it along the entire western and a go
part of the northern borders of the Park, an
were engaged in whipping it out at some distan
from the lower northern line. It is though
the danger is past unless some of the burnin
trees should fall into the Park and the fire from the
should start up too rapidly for the vigilance
the employes, who are still remaining on th
ground to keep guard. The Commissioner is ce
tainly entitled to credit for his promptness in th
matter.

SUDDEN DEATH—INQUEST.—Sunday evening

TUESDAY MORNING, SEPT. 12, 1871.

CITY.

KALAMA ILLUSTRATED.—Frank Leslie's Illustrated newspaper has a wood cut illustration of Kalama from a sketch by Mr. E. T. Coleman of this city. Mr. Coleman says that his sketch was not followed in the engraving, in several particulars. The Kazano hotel, one of the most conspicuous buildings in the town, does not appear at all; the R. R. Co.'s office, in the illustration, has an awkward peaked roof instead of a neat mansard; and the Episcopal church on the point of the bluff, is omitted. As we look at the Kalama of fact, the buildings in the illustration do not appear quite sufficiently in perspective relief. Otherwise the picture conveys a very fair idea of the town. The newspaper men have published in connection with the picture an account of Kalama, in which it is stated that "about six hundred families" constitute the population. This is decidedly a whopper. It would be a sufficient exaggeration to say that the entire population, exclusive of railroad laborers, is six hundred souls. We doubt if an actual enumeration would show three hundred. The newspaper statement is not the one furnished by Mr. Coleman.

PASSENGERS FOR OREGON.—The steamship *Idaho* sailed from San Francisco on Sunday, the 10th, for Portland, with the following list of passengers:—H Webster, N Goff, H H Carpenter, M Craig, S Harris and son, M Hirsch, B Bremer, H Ackerman, A R Gunnison, D Olmstead, J Bloom, P Selling, J F Watson, John Adams and wife, J H Taylor, N Goodman and child, L K Lino and nephew, Prof R C Cromer, Thos Kirchoff, H Logan, J Wright and family, Mrs O Levy, Miss Laura Foster, Jerome King and 4 children, J W Kerr, M Rose, J Crane, A King, H Newhouse, P A Dougherty, J J Hackney, H O Hecknay, C W Daniels, R E Doyle, A C Austin, R Dinsmore, M Levy, T Cahalin, J O'Neil and wife, Miss A Smith, Mrs Gallagher and child, J A Ebbert and wife, R F McGinnis and family, H Hess, Mrs A Wise, Miss Ida Boyd and sister, Mrs M D Clopton and 2 children, Rev J Emery and family, Mrs Mark and child.

THE PARK SAFE.—Mr. Marshall, the Street Commissioner, informs us that he sent out to the Mountain Park three or four men Sunday evening and the same number were kept there yesterday, to fight the fire and prevent its entrance to the Park. At noon yesterday this force had succeeded in driving it along the entire western and a good part of the northern borders of the Park, and were engaged in whipping it out at some distance from the lower northern line. It is thought the danger is past unless some of the burning trees should fall into the Park and the fire from them should start up too rapidly for the vigilance of the employes, who are still remaining on the ground to keep guard. The Commissioner is certainly entitled to credit for his promptness in the matter.

SUDDEN DEATH—INQUEST.—Sunday evening a man named James Harrison, who had been tending bar for awhile at the Santiago saloon, corner of Front and Madison streets, suddenly died. He had complained for six weeks of not feeling well. Yesterday Coroner Thos. J. Dryer repaired to the place and held an inquest upon the body, the following jurors being summoned therefor: O. Risley, H. C. Dray, J. B. Sprenger, O. M. Packard, L. V. Starr and D. Metzger. The jury returned a verdict that, in their belief, the man died of consumption. Harrison was a native of Ireland, aged about 30 years. He had been a soldier and came to this coast with the 23d U. S. Infantry. The body was taken in charge for burial by Mr. F. Martin.

SETTLERS FOR TILLAMOOK.—Mr. Jacob Stitzel, who was out in Washington county, a day or two since, informs us that he saw twenty-five persons en route for Tillamook, with a view of taking farms and settling there. They had come from California, overland, with wagons which they had shipped around by water, they themselves going by the way of the Tualatin trail, with their animals. They were formerly from Kansas. It seems the immigrants do not all come in by water via Portland. Our advices are that there has been a constant accession from California by way of the Rogue river valley. A [illegible] of the population would probably justify the highest estimate made, as to the immigration this year.

ARRESTS FOR HORSE STEALING.—Officer Brannan returned on Sunday from Astoria, where he had been sent to arrest a couple of young men, on suspicion that they were the parties who stole a horse some time ago from a man named Mahan and sold it in this city. At the time that a man was arrested with the horse, in this city last week, it was claimed that he bought the horse for a small sum from a couple of young men, of whom such description was given as led to this arrest. The young men are said to be stepsons of Mr. Mahan who lost the horse.

NOT FAR FROM RIGHT.—Yesterday morning we stated what was reported in relation to the burning of a house on the mountain, in substance: Five Mile House—property of Sherlock & Bacon—on Canyon Road—caught from fire in the woods. We learned yesterday that it was not the Five Mile House—was not the property of Sherlock & Bacon, but it was on Bacon's place—and that it caught fire from a stovepipe. The first statement was correct in *one* particular: there *was* a house burned.

EASY CHAIRS.—The *Hattie C. Besse* on her last trip from China, brought an invoice of easy arm chairs, made of bamboo and cane—not only a neat but exceedingly comfortable article, and "so handy to have in the house." They were consigned to the Wa Kee Co., who have them for sale. Sam Poy, one of the bosses in that house, has kindly designated one of them for our particular use, for which we are bound to consider Sam Poy as a particularly celestial child of the sun.

SOCIETY MEETING.—There will be a special meeting of the "Ladies' Relief Society" on Wednesday, the 13th, at 2½ o'clock P. M., at the usual place. A large attendance is requested, to attend to important business. This Society has for rent a small house, on the corner of 14th and F streets, with two lots and a good well attached, for $15 per month. Any one wishing to rent it, will please apply at the residence of Capt. Ainsworth or Mr. J. B. Congle. 2t

A CARD.—We publish the following by request:

"PORTLAND, Sept. 11, 1871.

"To the officers and members of Willamette Engine Co. No. 1—Gentlemen: I think that the members were aware that I resigned as Foreman of your company without publication; therefore, I am much obliged that it was accepted.

CHAS. W. REYNARD."

RAILROAD OPERATIONS ON FOURTH STREET.—The track of the O. C. Railroad was laid at 4 o'clock P. M. yesterday, as far up as C street. The grading was then completed to Oak street. The Company has a large force of men at work at the upper end of the city, excavating and filling. Just now, Fourth street is rather a lively place.

LARGE STOCK FARM.—Messrs. Stitzel & Upton, Real Estate Agents of this city, have recently made an extensive purchase of land in Washington county, on their own account. They had, before, a farm of one thousand acres, and their late purchase makes it 2,100 acres, all in one tract. They have several Scandinavian immigrants on it.

IF YOU PLEASE.—Will the local reporter of a "contemporary" look again at our item about a "terrific fall," then at his own, and see if he has correctly represented what was said by us. Perhaps Mr. Crich might profitably make a similar examination.

NOT SO BAD AS REPORTED.—We are glad to learn that Mr. C. Crich, reported yesterday morning as having had a fall from the Fourth street, railroad bridge, was not much hurt, and that he is about his business as usual.

CARD.

The undersigned take this method of correcting an erroneous idea that seems prevalent in this community, notwithstanding our statement to the contrary. It is reported currently in this city, and we understand that some of the newspapers in the interior assert, that our house is a branch of the house of A. L. Bancroft & Co., San Francisco. We wish it *distinctly* understood that we are not connected in any manner whatever with A. L. Bancroft & Co., or with any other firm in San Francisco or elsewhere. We are content to stand on our own merits, and feel perfectly confident that we shall be fully able to satisfy our customers and the public.

WOMAN SUFFRAGE.

MISS SUSAN B. ANTHONY ANSWERS OBJECTIONS.

There was a full house at Oro Fino Theater last evening to hear Miss Anthony answer objections to woman suffrage—one of the best audiences in many respects that she has had, embracing very many of the first men and women of the city. Miss Anthony talked nearly two hours and a half. She had numerous questions and objections to answer, all of which she answered with much ready ingenuity and plausibility, if not with conclusive reason. We think she answered most of the questions more nearly satisfactorily than had been anticipated, and made a really good argument in favor of woman suffrage—certainly the best we ever heard. We can only pretend to give a synopsis of her argument, and briefly at that, though we do regret that we cannot do better and reproduce the many good things she said that were merely incident to the argument.

ABOUT MAN'S REPRESENTATION OF WOMEN.

She said that she had often been met with the saying that husbands represent their wives, and that thus women had a voice in the various affairs of life. But what of the women who have no husbands? The women who are widows? The women who are the wives of men incapable of properly representing anybody? There are in the United States 300,000 common drunkards—do they represent their wives and daughters? There are 150,000 liquor dealers—do they represent their wives and daughters? No individual can represent another, as that other would do for himself or herself.

It is said, also, that women now influence men's votes. But that is an influence without responsibility; and therefore dangerous. Irresponsible power is always dangerous. So far as women now influence men in public life, courtesans exert more power than the combined numbers of all the virtuous and pure women. That fact results from the peculiar structure of the social system, the latter class of women being mostly cut off from the possibility of attempting to use their influence.

"THE BIBLE IS AGAINST IT."

This objection, she said, is an old one, which has been used successively against new sciences, reforms and in support of evil institutions. The Bible contains texts which have been used and as often answered, against the now universally recognized truths of science, temperance and to justify slavery. The objectors should remember that the Bible was written in accordance with the civilization of the age, and that in those times the women did not have the consideration in the minds of even good men that they have now. She thought the injunction of the Bible upon women to submit themselves to their husbands had no more rightful force than that which exhorted servants to be obedient to their masters, or that which advised wine for the stomach's sake. It is notorious that many of the vilest institutions had been supported by people who found their arguments (bad ones) in the scriptures, and then many noble, pure and christian measures had been opposed by just such objectors.

"THE BALLOT WILL DEGRADE WOMEN."

You say this, notwithstanding the fact that many women are now degraded by their relations with vile men. It will not degrade her to be made able to meet such men on a plane of equal power. There is no fear of it. The fear on the part of the objectors, is that the enfranchisement of women will cut short man's licenses. Women would be as refined and pure with power as without it. To support this, she cited the example of several public conventions where men and women were associated with equal power. Men and women, associated on terms of equality, mutually elevate and refine each other, as any one's experience in private social life would attest. There is no instance where giving the voting power to man has degraded *him*. Are women less to be trusted in this respect than men? Responsibility goes with the ballot and responsibility creates self-respect and lifts the individual. The ballot would not degrade, but elevate woman morally, intellectually and, therefore, socially.

"WHO WILL TAKE CARE OF THE BABIES?"

Who takes care of the babies of fashionable women now? She did not approve of the way in which the children of such women were cared for. Good women, educated as they ought to be, will take care of their own babies. When you ask this question, you overlook the women who go out into the world to buffet for themselves and their children—the widows and the wives of besotted drunkards. Let woman have her proper share of the means to live, of the government offices, places of profit and trust, equal wages with men, and she will be able to provide for the *proper* care of her children.

"THE DELICATE, REFINED, GOOD WOMEN WILL NOT VOTE."

Women enfranchised will have the means of self-support, in case of need. What man would not prefer to have his delicate and refined wife or daughter with the power in her hands to claim and have an equal share with the rest of the world in the means of gaining a livelihood? Horace Greeley had once said to her, "We do not want any more voters; we have enough ballots; what we want is 60,000 good cooks. Her experience had taught her that more good cooks are needed, but is it necessary that all of them should be women? That depends upon capacity and fitness. She thought men better adapted to be good cooks than women; and a good many seem to think so, too, as all the extra, high-priced kitchens are occupied by man cooks. How are women to have time to hold office? How do they find time now to go to church, assemblies and visiting? In the matter of public offices, she had observed that in most cases office hours of men are very few; if women were to find their official duties sit as lightly on their shoulders, and have as many hours out of office, they would have little difficulty in finding time enough. She would have no trouble in attending properly to all household duties with time enough to exercise all the duties of a voter or office holder. When it comes to voting upon questions or individuals with such an issue as the suppression or countenancing of some of the bad institutions that flaunt themselves before the public eye, there is no woman so delicate or refined that she would not gladly vote.

"IF WOMEN VOTE THEY MUST FIGHT."

Horace Greeley once said to the woman suffragists: "The ballot and the bullet go together—if women vote they must fight." She replied to him that she had no doubt that every woman would be perfectly willing to take the ballot and bullet together, and to fight just as he had done during the war. As to this objection, she said that if a man be lame, or has but one eye, or has lost a front tooth, etc., he is not required to fight, but he still retains the ballot. Men of certain ages and occupations are exempt from fighting, but they all vote. The ballot and the bullet do not go together. If, however, women wish to bear the musket, she had no objection; but when women came to vote, she believed, they would always lean toward other means of settlement of troubles. But, if war becomes a necessity, women would bear their full share of the burdens, as they always had done—in the furnishing and forwarding to the camp of the necessary supplies, in the hospital work, and the care of children and homes.

AS TO FAMILY QUARRELS, AND DISSOLUTIONS OF PARTNERSHIP BY DIVORCE.

Are there no family quarrels now? and divorces? The police reports of cases where women are concerned, show a large per cent. of family quarrels. What do the lawyers say of family quarrels and divorces? Who had not noticed that if two dogs be quarreling in the street over one bone, and if another bone be thrown them, each dog would take up his separate bone and go off and gnaw it in peace. So it would be with men and women in regard to the ballot and equal rights under the law. The voting franchise would lift woman out of the necessity under which so many now live, of marrying just to secure a home. She would, therefore, more frequently contract proper and congenial marriages, and a fruitful cause of divorces would be removed. As society now exists, women are cut off from most of the means of being independent, and is compelled to seek marriage as a means of maintenance. Marriage is, therefore, often a mere mercenary contract, and it is not wonderful that divorces follow. Make her equal with man in legal advantages and there will then be more marrying for love, less for money, and fewer divorces. As to who is to be the head of the family—that would be regulated as now—the brains of the family would govern.

"FREE LOVE."

Those who charge that woman suffrage would tend to free love, simply use the charge as a bugbear. Men bring the charge, women do not. Who believes that women would be worse free than now? Free love is a bugbear similar to that which the supporters of slavery raised against the abolitionists—that they were amalgamationists.

"WOMAN DOES NOT WANT TO VOTE."

Then why do you put those two little words "white males" into your constitutions when defining who are electors? Don't you do it to prevent women from voting, and because you know they want to vote? She said there are questions upon which women, *all* women do want to vote. She took the "social evil" as an example, and said that if one man were a candidate pledged to sustain it, and another pledged to suppress it, the women would. [Here she took a vote among the ladies to see how many would not and how many would want to vote. No voice answered that she would not vote, while a good many answered "Yes" to the proposition to vote.]

ABOUT THE ONE-IDEAISM OF WOMAN SUFFRAGISTS.

It might be true that bad women would be brought up to vote with the worst party, but that proves nothing. That class are few, compared with virtuous and pure women. Good women when they come to vote would be like good men—the larger part of them would vote for correct principles. Most men, as now, vote their straight party ticket, ignoring other vital issues, such as temperance. In revolutions, men are inspired and actuated by one idea freedom from tyranny. The anti-slavery men were one idea men; but they accomplished the emancipation. When the late war came, loyal men did not differ about banks and tariffs, but throwing all other questions overboard, they united on the one idea of saving the government. This one idea is a good thing. The trouble with a good many people is to have even one idea. Reconstruction was a thing of one idea—the negro was the one thing to save the Republican party. The California election turned upon one idea—subsidy and corruption. All that the women want in this movement is to know neither Democrats nor Republicans; to know nobody unless pledged to woman suffrage. There is no question now pending, so important as the disfranchisement of half the people.

THE OBJECTIONS BEING DISPOSED OF.

Miss Anthony spent some time in showing how woman suffrage, holding office and serving on juries worked in Wyoming; citing the favorable testimony of Judge Howe and others. After an earnest appeal to the women to insist on the ballot, and some advice as to the method of proceeding, she closed her address, and took a vote of the audience—men and women—to ascertain how many favored woman suffrage. There was a full vote in the affirmative and a scattering few negatives. The meeting was closed by the singing of a campaign song by Miss Duniway.

WHO IS THIS PROF. CHANEY?

TO THE EDITOR OF THE OREGONIAN:

In your issue of this morning, under the elegant heading of "Abraham Gone up the Spout," you respectfully ask, "Who is this Prof. Chaney?" I do not intend answering the query, because it is less consequence than the question, "Does he teach truth and rational philosophy?" If he does not, he should be met with reason and argument, his sophistry exposed, his errors pointed out, and then he will sink into such insignificance that no one will care who he is.

The true logician and sound debater rarely resorts to ridicule, the chief weapons of unreasoning bigots. During the dark ages, the dungeon, the rack and the burning stake were the popular arguments of the bigot, and they were unanswerable. But these have subsided with subsiding barbarism until we now have abuse and ridicule in their stead. As in the dark ages, the most ignorant were the most cruel, so in our partial civilization, those who know the least about the subject condemned are the loudest in their abuse.

While Fulton was building his first steamboat, the savans of New York city ridiculed him; men of only ordinary intelligence scoffed and called him insane, school boys wrote with chalk upon his shop door, "Fulton, the madman;" ignorant rowdies hailed him on the street as "Fulton, the fool!" and threw mud at him. Well, I have learned by experience that when gentlemen of intelligence, (though unfamiliar with the subjects I make specialities) set the example of attack by ridiculing me; that running down the scale to the extreme of ignorance, will be found persons ready to offer me insult and violence. Of course you would condemn such rowdyism, and yet the sneering style of your article tends to develop the very evil you would rebuke.

I have been many years a public journalist and know something of the influence of a newspaper; know its power to direct and control public opinion; know that the press can make an ignorant and vicious man famous; know that it can make a learned and virtuous man infamous. Possessed of this knowledge, I cannot recklessly declare, "No matter what the newspapers say!" It does matter what they say, for they exert a great influence upon society, especially under a republican form of government, where the greatest freedom is tolerated.

I invite the severest criticism, so long as it is uttered intelligently. I challenge debate, with any person, on the several issues which I make in my lectures. If I am in error, it will be an easy task to prove it by sound argument, and more satisfactory to inquiring minds than such sneering questions as "Where's Chaney?"

I am sincere in my position that Abraham was a planet, and think that the Bible sustains the conclusion just as clearly as it does that "Orion" was a constellation; that "Mazzaroth" was the zodiac, or that "Arcturus and his sons" were fixed stars. Yet I may be mistaken, for human reason is constantly erring. If I am, then is there not at least one man in Portland with sufficient philanthropy to meet me in public discussion and show it? This is the better way to silence me, for there is a spirit of inquiry abroad which cannot be laid by ridicule. Let it be done then for the benefit of the people, regardless of myself.

W. H. CHANEY.

September 11th, 1871.

BUSINESS NOTICES.

REAL ESTATE SALE.—At auction, on Saturday next, the 16th September, by A. B. Richardson, four quarters block 321, situated upon Yamhill and Thirteenth streets. The locality is most beautiful and very healthy; convenient to the center of the city and the new Parks, and about six minutes walk to the new Postoffice, commanding a view of East Portland and the snowy mountains. For private residence or investment it is most suitable. Grading very light indeed and the block perfectly level. Terms half cash and long time—one and two years. The opportunity to purchase such desirable and valuable property may never occur again.

HEARD FROM.—We have found Prof. Chaney, And Prof. Chaney is indignant. His rebuke which cuts us up, will be found in this morning's paper. May we trust that some "true logician and sound debater" who believes in Abraham, and who has no ridicule into him, will show his "philanthropy" by meeting this Prof. Chaney and defending the character of our respected forefather, Abraham?

MEDICATED INHALATIONS—as practiced by Dr. Aborn, at the St. Charles Hotel, have proved almost universally successful in all Throat, Bronchial and Lung affections, especially such cases as have resisted the ordinary modes of treatment.

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from the gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. PERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

PICKINGS.

A Western genius is catching fleas, pulling out their legs, and selling them for flax seed.

When is a vessel like a scarf pin? Give it up? When it is on the bosom of a heavy swell.

The Chicago *Post* goes "carhomicidomanie," one better with "splittaferriboatsassinsonity."

Forty million dollars was the amount which the fishing interest of New England stocked last year.

Newport contrives to figure up a nice little assessment roll—$23,118,300—an increase of near two millions since last year; and pays a tax bill of $189,570 without a groan, and is happy.

A little four year old while combing her father's hair was asked if she saw any white hairs? "Yes," was the reply, "it looks just as if it had been snowing in your upper story."

A summer boarder (a very close calculator) recently astonished the landlord by asking him how much he was going to deduct from his board bill because he had two teeth extracted. Next!

A correspondent of the Hartford *Courant* who has been sailing along the Massachusetts coast, wonders why Gloucester is spelled the way it is, and if that is right, why shouldn't lobster be spelled "lobcester?"

Mr. Wm. N. Manning, jeweller, of Gloucester, Mass., cut his name upon an old fashioned copper cent twenty one years ago, and had it returned back to him a few days since. What a pity he couldn't collect the interest on it.

It is said that Cundurango, the new drug from South America, which is claimed to be a certain cure for cancer, is a humbug. Some time ago the State Department sent samples of the new drug to a number of leading physicians in the several cities in order that they might test in their practice. Most of these physicians have made their reports to the department and say that the drug cundurango has no value whatever in the treatment of this terrible malady.

The Chicago *Tribune* says: "The Vallandigham [illegible] has already broken down; the whole South rebelled against it, and the weak kneed Democracy of the North has yielded. Now comes the Southern departure—the repudiation of the [illegible] amendments and compensation [illegible] slaves. That is what more than one third of the Union and more than one half the Democratic States de[illegible] [illegible], the Democracy [illegible] will first [illegible], and then make it their distinctive policy."

J. Edgar Thompson, President of the Pennsylvania Central Railroad, acts on the principle that speech is silver, but silence is golden. An English capitalist, recently, having business with the railway magnate, was told by a wag that Thompson liked to do all the talking, and the result was that, in an interview of fifteen minutes, not twenty words were spoken. When the Briton came out, the wag inquired his opinion of the railway financier. "He seems to be an idiot," was the response. Thompson, questioned respecting the Englishman, expressed the opinion that he must be a fool.

The New York *Times* says: "If Mayor Hall or any other dishonest Democrat wants some figures [illegible] the relative cost of upright administration and thieving, we commend him to the contrast drawn by Mr. Delano, in the speech we published this morning, between the national expenses and those of New York city. And if any honest Democrat will need enlightenment as to the enormity of the Tammany stealings, we commend him to the same document. Mr. Delano is a gentleman of acknowledged ability and fairness, and his argument is temperate as well as clear and convincing."

The laws of easy divorce in Indiana seem to be used as the means of doing a very brilliant stroke of business occasionally. Not long since a gentleman in Lewisville, in that State, who had been suffering for some years from paralysis, was divorced from his wife just before his death without knowing anything about it. His considerate friends took entire charge of the matter, and did not trouble him at all with their proceedings. The wife was in some way prevented from making any opposition, and the whole was carried through with "promptness and dispatch." The object of the transaction was to secure the dead man's property, amounting to about $100,000, without its being curtailed by the widow's right of dower. Of course now there is no widow and dower, and the kind friends of the deceased are enjoying the first fruits of their labor.

Mrs. Stowe on Free Love.

In her "Pink and White Tyranny," Mrs. Harriet Beecher Stowe gives this calm and logical refutation of the theories of the so-called "social reformers:"

"Well, then, it has been very surprising to us to see in these our times that some people, who really at heart have the interest of women upon their minds, have been so short-sighted and reckless as to clamor for an easy dissolution of the marriage contract as a means of righting their wrongs. Is it possible that they do not see this is a liberty which, once granted, would always tell against the weaker sex? If the woman who finds she has made a mistake [illegible] unsuitable or uncongenial, may, on the discovery of it, leave him, and try her fortune with another, so also may a man. And what will become of women like Lillie, when the first gushing begins to wear off, if the men who have taken them are to be at liberty to cast them off and seek others? Have we not enough now of miserable, broken-wing butterflies, that sink down, down, down into the mud of the street? But are woman-reformers going to clamor for having every woman turned out helpless when the man who has married her, and made her a mother, discovers that she has not the power to interest him, and to help his higher spiritual development? It was because woman is helpless and weak, and because Christ was her great protector, that he made the law of marriage irrevocable—'Whosoever putteth away his wife causeth her to commit adultery.' If the sacredness of the marriage contract did not hold—if the Church, and all good men, and all good women [illegible] main, it is easy to see where the career of many women like Lillie would end. Men have the power to reflect before the choice is made, and that is the only proper time for reflection. But, when once marriage is made and consummated, it should be as fixed a fact as the laws of Nature. And they who suffer under its stringency should suffer as those who endure for the public good. 'He that sweareth to his own hurt, and changeth not, he shall enter into the tabernacle of the Lord.'"

FINANCE AND COMMERCE.

MONDAY EVENING, Sept. 11, 1871.

Gold in New York, 112⅜.

Currency, buying, 88c; selling, 89.

Currency check, buying, 87½c.

The *Hattie C. Besse* is still discharging freight.

The following vessels are unengaged: *Hattie C. Besse*, *Bristolian* and *Garibaldi*.

The *Skiddaw* is fast completing cargo.

The Railroad Company will advance rates of freight on some articles between here and Marion and Turner on and after the 15th of this month. The advance, we are informed will be small, and only put on to equalize the tariff.

By mail, advices received from New York to August 30th, giving a dull market, owing to unfavorable advices received from Liverpool. The particulars of advices from Liverpool is not given, only stating that: "Wheat has been depressed and quoted off in price about 2c per bushel on a more urgent offering of stock, and less favorable Liverpool advices. The export has been on a restricted scale. Millers have been purchasing sparingly. The market closed in favor of purchasers." There still exists great scarcity of tonnage to Europe and prices in consequence have advanced, with great difficulty in obtaining sufficient tonnage to take even what freight is offering. There has been a great deal more Wheat and Corn exported thus far for this season from the Atlantic ports than has ever before been known for the like period.

Our advices from San Francisco are very conflicting, showing most conclusively that speculators come in for one or two days, then drop out, giving the feverish state of market existing there. That the prices ruling at the present time in San Francisco are unsafe and not reliable, can be readily perceived by counting the cost of Wheat delivered in Liverpool bought as low as $2 60 per cental:

Price paid	$2 60	per cental.
Freight (average) £2 10s per ton	62½	"
Commission for purchasing	05	"
Drayage and wharfage	03¼	"
Other expenses, insurance, etc	10	"
Total	$3 31	per cental.

Our last public dispatches gave quotations in Liverpool at 12s 4d, but we have been informed of a private dispatch received quoting Wheat at 12s 8d per cental. Taking the price at 12s 8d gives price in our currency at near $3 23 cental. The cost of shipping from this port is fully 18 cents more than in San Francisco, owing to freight being higher and commission for purchasing more. It will be readily seen by the above that shippers have good grounds for going out of the market when prices go over certain figures. Millers regulate their prices by shippers.

The future of the Wheat market is to a great extent enveloped in mystery, for reports as to crops one week are contradicted the next, so that buyers who are so distant as ours from the demand market can only purchase under telegraphic orders at present prices, not what the future may be, as by the time vessels leaving here arrive in England (six months en route) prices may be entirely different.

The following from the London *Financier* will be read by all, irrespective of party, with a feeling of pride. This article was written previous to the successful negotiation of the New Loan in England. Financial and commercial articles are almost invariably written with candor and justice to all concerned, and this coming from a leading financial journal speaks volumes and fully confirms the opinion expressed by us in the issue of Sept. 5th, in an article on the rapid flow of capital to the United States for investment. It will be remembered that the applications in Europe were 30 per cent. in excess of sums offered there. The *Financier* says:

"An event which has long been foreseen has at length come to pass. The [illegible] the United States is at last rated at 6 per cent. and upward in the market; that is to say, a Five per Cent. stock of that Government now commands a par or a premium. This is proved by the fact that the Ten-Forty Five per Cent. Bonds were quoted yesterday at an equivalent of 91@91½ ex div., 91 being par. It is also proved by the further fact that, yesterday afternoon, telegrams from New York brought the price of the new Five per Cent. Loan to equal to 91@91½.

Considering the most illimitable resources of the United States, and the numerous reasons, particularly those having reference to the standing expenditure, in which the Government of that Republic has a position of advantage far beyond the majority of European States, the wonder is not that this point in United States financial history has now been reached, and that it was not attained long ago. Other States borrow; the United States pay off debt. Other States habitually exceed their income; the United States Government habitually lives within its income, and stands almost alone amongst the Governments of the world in having a large surplus, applicable, and actually applied, monthly and annually to the reduction of the capital of its debt. Then, as regards natural resources, facilities of future expansion and development, the extent of the field for immigration, freedom from that modern curse—the necessity of keeping up large standing armies—and the possession of large tracts of Government land, ever increasing in value—on each and all of these points the position of the United States is superior to that of other nations. The appreciation of the credit of its Government in the market is, therefore, perfectly natural, and will, doubtless, go on until a much higher range of value is attained.

These considerations are of especial interest at the present moment, because they betoken a distinct success for the new United States funding loan, which is expected to be introduced in the London market on Friday or Saturday next. It is fully believed that the applications for this issue will be very extensive. The fact that the Ten-Forty Bonds, bearing 5 per cent. interest, and having three years more to run before becoming liable to commutation, were at fully par ex dividend, renders it certain that the public will appreciate the advantages of the new five per cent. bonds. For these new bonds, besides being expressly made payable in gold, both principal and interest, and enjoying immunity from all forms of United States taxation, possess the advantage of being free from all further commutation for ten years certain, until after the expiration of which period the Government cannot touch their position. Moreover, the interest is to be payable quarterly."

Merchandise Report.

WHEAT—On Saturday a leading firm received a dispatch giving market "weaker" on Friday, and another dispatch giving market on Saturday as "firmer," with Liverpool quotations at 12s 8d. To-day they received a dispatch giving market "weaker," without any quotations. Buyers, for shipping, will not offer over $2 10 a cental for choice. We quote price for shipping $2 12½@2 15, sacked, per cental. Extra choice will probably command more than the above in straight lots for shipment to San Francisco for immediate delivery.

FLOUR—Market inactive, with very firm prices ruling. Extra, $7 per bbl; superfine, $6 25@6 75 per bbl.

BREAD—Bakers expect to advance soon all descriptions to rates corresponding to the advance in Flour.

DRUGS—Quinine under advices from New York has advanced, quotable at $2 60@2 75 per oz.

ROSIN—Advices from the East continue to give an advancing market with an active demand for special purposes.

HOPS—The following is taken from Aiken & Sons' New York Circular: "After an extended tour of the senior member of our firm through the Hop growing section of this State, and full reports from trustworthy correspondents from the country, we have come to the conclusion the yield of the present crop will be from one-half to two-thirds of that of last year, which was estimated at 100,000@110,000 bales. We think one half the present crop will be of excellent quality—the other half not so bad as has been represented by [illegible] parties. Large purchases have been made of the crop of 1870 at 20@25c. We hear of few contracts of New at 40@50c, which buyers regard to be very high. We estimate the 1870 crop 30,000 bales, including a few of older growths. From Europe we learn the English crop the present year is estimated at one-quarter an average, or one-half that of last year; a large stock of old to draw on. There will be a demand for choice American at fair prices. Crop in Germany one-half the average, which will be enough for their own use, with none to spare."
